

Dear Competitor,

we find it highly unlikely, but in case you missed it, the running order is ready! It is available on the Facebook page of the World Championship and you will also find it attached.

In this e-mail we would like to share with you some important information about the venue. Please read the following carefully.

At the entrance of Angyalföldi Sportközpont (1139 Budapest, Rozsnyay utca 4.) there is a small parking lot, but this area is reserved for the generous sponsors of the world championship. On Thursday and Friday you can park along the street, we are doing our best to get free parking here for you. Over the weekend a larger parking area will open up to us on the right side of the venue. We will send more details on parking options soon.

You will find a floor plan attached.

Inside of the building, you, competitors and your plus ones will have almost all the ground floor to yourselves. Only you - and the organisers - are allowed to enter the great hall where the ring will be and where there is a tribune for your plus ones to cheer you on. Visitors of the World Championship will only be allowed at the main entrance area of the ground floor. Where there is a red line on the floor plan, we will set up a gate and we will make sure, no one gets past it unauthorised. On the other hand the purple line shows the area that will be reserved for paying visitors with tickets. You, competitors and your plus ones may not enter the first floor and the tribune on the gallery.

The Team Zone will be set up at the very back of the building. Through the back door you can enter and leave without encountering the crowds of visitors and you can always take your dogs out here. You can enter the great hall through a corridor. The warm up ring will be covered with a rug, not the same artificial grass as the main ring! It will be clearly marked, but will not be enclosed.

From the warm up ring, you can enter the main ring. The size is 25 x 20 meter. It will be covered with green artificial grass and will have a wall fully and completely enclosing it. The height of the wall is 75 cm.

Once you have finished your dance you will be directed into the Cool Off Zone, that will be a small area inside of the Team Zone where you can play with and reward your dogs.

Might be good to know in advance, that there is no air conditioning in the building and temperatures in the second half of May usually vary between 20-25 °C in Hungary.

Please keep in mind, that competitors and their plus ones are allowed to bring non-competing dogs to the World Championship, but we need to be notified in advance and need to have the following data: Name of the owner, the team they are on, pet name of the dog, date of birth, male or female. If you haven't registered your non-competing dogs yet, please do so!

If you have questions, please let us know!
We will try to get all the answers for you as soon as possible!

It really won't be long now until we meet!
Surely you are as excited as we are!

Best regards,
The Organisers
