

Dear Competitors,

time flies and the World Championship of 2024 is almost here!

In this e-mail we would like to share some information with you about the training day.

The running order, in which you will also find the schedule of the training day, is pinned to the top of the Facebook page of the World Championship. We keep this file updated, so you can always check if there has been any changes.

On Thursday and Friday parking spaces will be available in a limited number at the venue, for approximately 40-50 cars. We will help you find a spot when you arrive. As you already know, over the weekend we will have a larger parking area on the right side of the venue that we can use.

What we would like to ask you to do is to be there on time! It's really important, that all competitors representing your country arrive and are ready 15 minutes prior to your time slot. You will be asked to wait next to the main ring for your turn to enter.

Please send us the order in which competitors of your country would like to enter the ring to practice. We will arrange your music files in a corresponding order for the sound checks, so that it goes quickly and smoothly. Please note that this is the one and only sound check before your performances. We will note the signal you would like us to start your music to and we will note the level of sound you would prefer.

At the end of the training day you will have the chance to discuss all your questions with head judge Cora Czermak at the briefing and then the Opening Ceremony will take place, followed by a reception.

Thank you for your list, your running order for the raining day in advance!

We are very excited to welcome you to Hungary!

Kindest regards,
The Organisers
